MODERN A CHEMISTS

who we are

As part of ancient chemical practices alchemists converted atomic components into gold. The logistics notwithstanding, our effort is similar to theirs in nature, albeit at a symbolic level. Our endeavour is to supply an unending and uncompromising high-end stock of pure and unadulterated chemicals to our clientele, which in essence, is as pure as gold.

With a unique understanding of making available, these life-saving chemicals, ABS Mercantiles Pvt. Ltd. was established in 1997 with Aurobindo Pharma Ltd. as the only principal unit. It is a renowned name today for its marketing and sale strengths in APIs, Intermediates and Solvents in North India.

ABS was founded by Mr. B.R. Sikri with almost 40 years of experience in myriad sectors

including more than 20 years in the field of Pharma. His expertise covers logistics throughout the entire supply chain and extends to sourcing, purchasing, warehousing and timely delivery. ABS understands that "Success is not a result of spontaneous combustion, rather one must set himself on fire" and with that belief, ABS represents many leading APIs manufacturers in the country, many of which are represented on Exclusive Basis.

CHEMICAL BONDING

who empower us

Chemistry is a study of matter and its interaction with other matter. The consistent track records of 15 well established Pharma conglomerates have led matters to take shape of Strategic Tie-Ups, evident of a great chemistry between our ideologies. The sole aim of these tie-ups is to bring the changed face of science at an unprecedented pace within easy reach of the customers.

Furthermore, what brings us together is our conviction to bring greater relief to patients at the earliest and our mission to have zero-tolerance for suffering by providing for quality chemicals. To make this approach effective and to handle these chemicals with utmost care, the combined efforts of the manufacturers and ABS Mercantiles, are always at the forefront. ABS operates a specialist service for safely transporting laboratory chemicals in coordination with its vendors.

SHANXI WEIQIDA PHARMACEUTICAL CO. LTD., CHINA

We at ABS take pride in being associated with Shanxi Weiqida Pharmaceutical Co. Ltd. for the sale of their Clavulanate range of products mentioned in the product list at the end. Shanxi is the first Chinese company whose products were registered in India through our diligent efforts, which tremendously increased the sales of Clavulanate range of products in the domestic market. Today we are proud to have the highest market share in the Indian market, amongst the other eight manufacturers of it worldwide.

ACID-TESTS

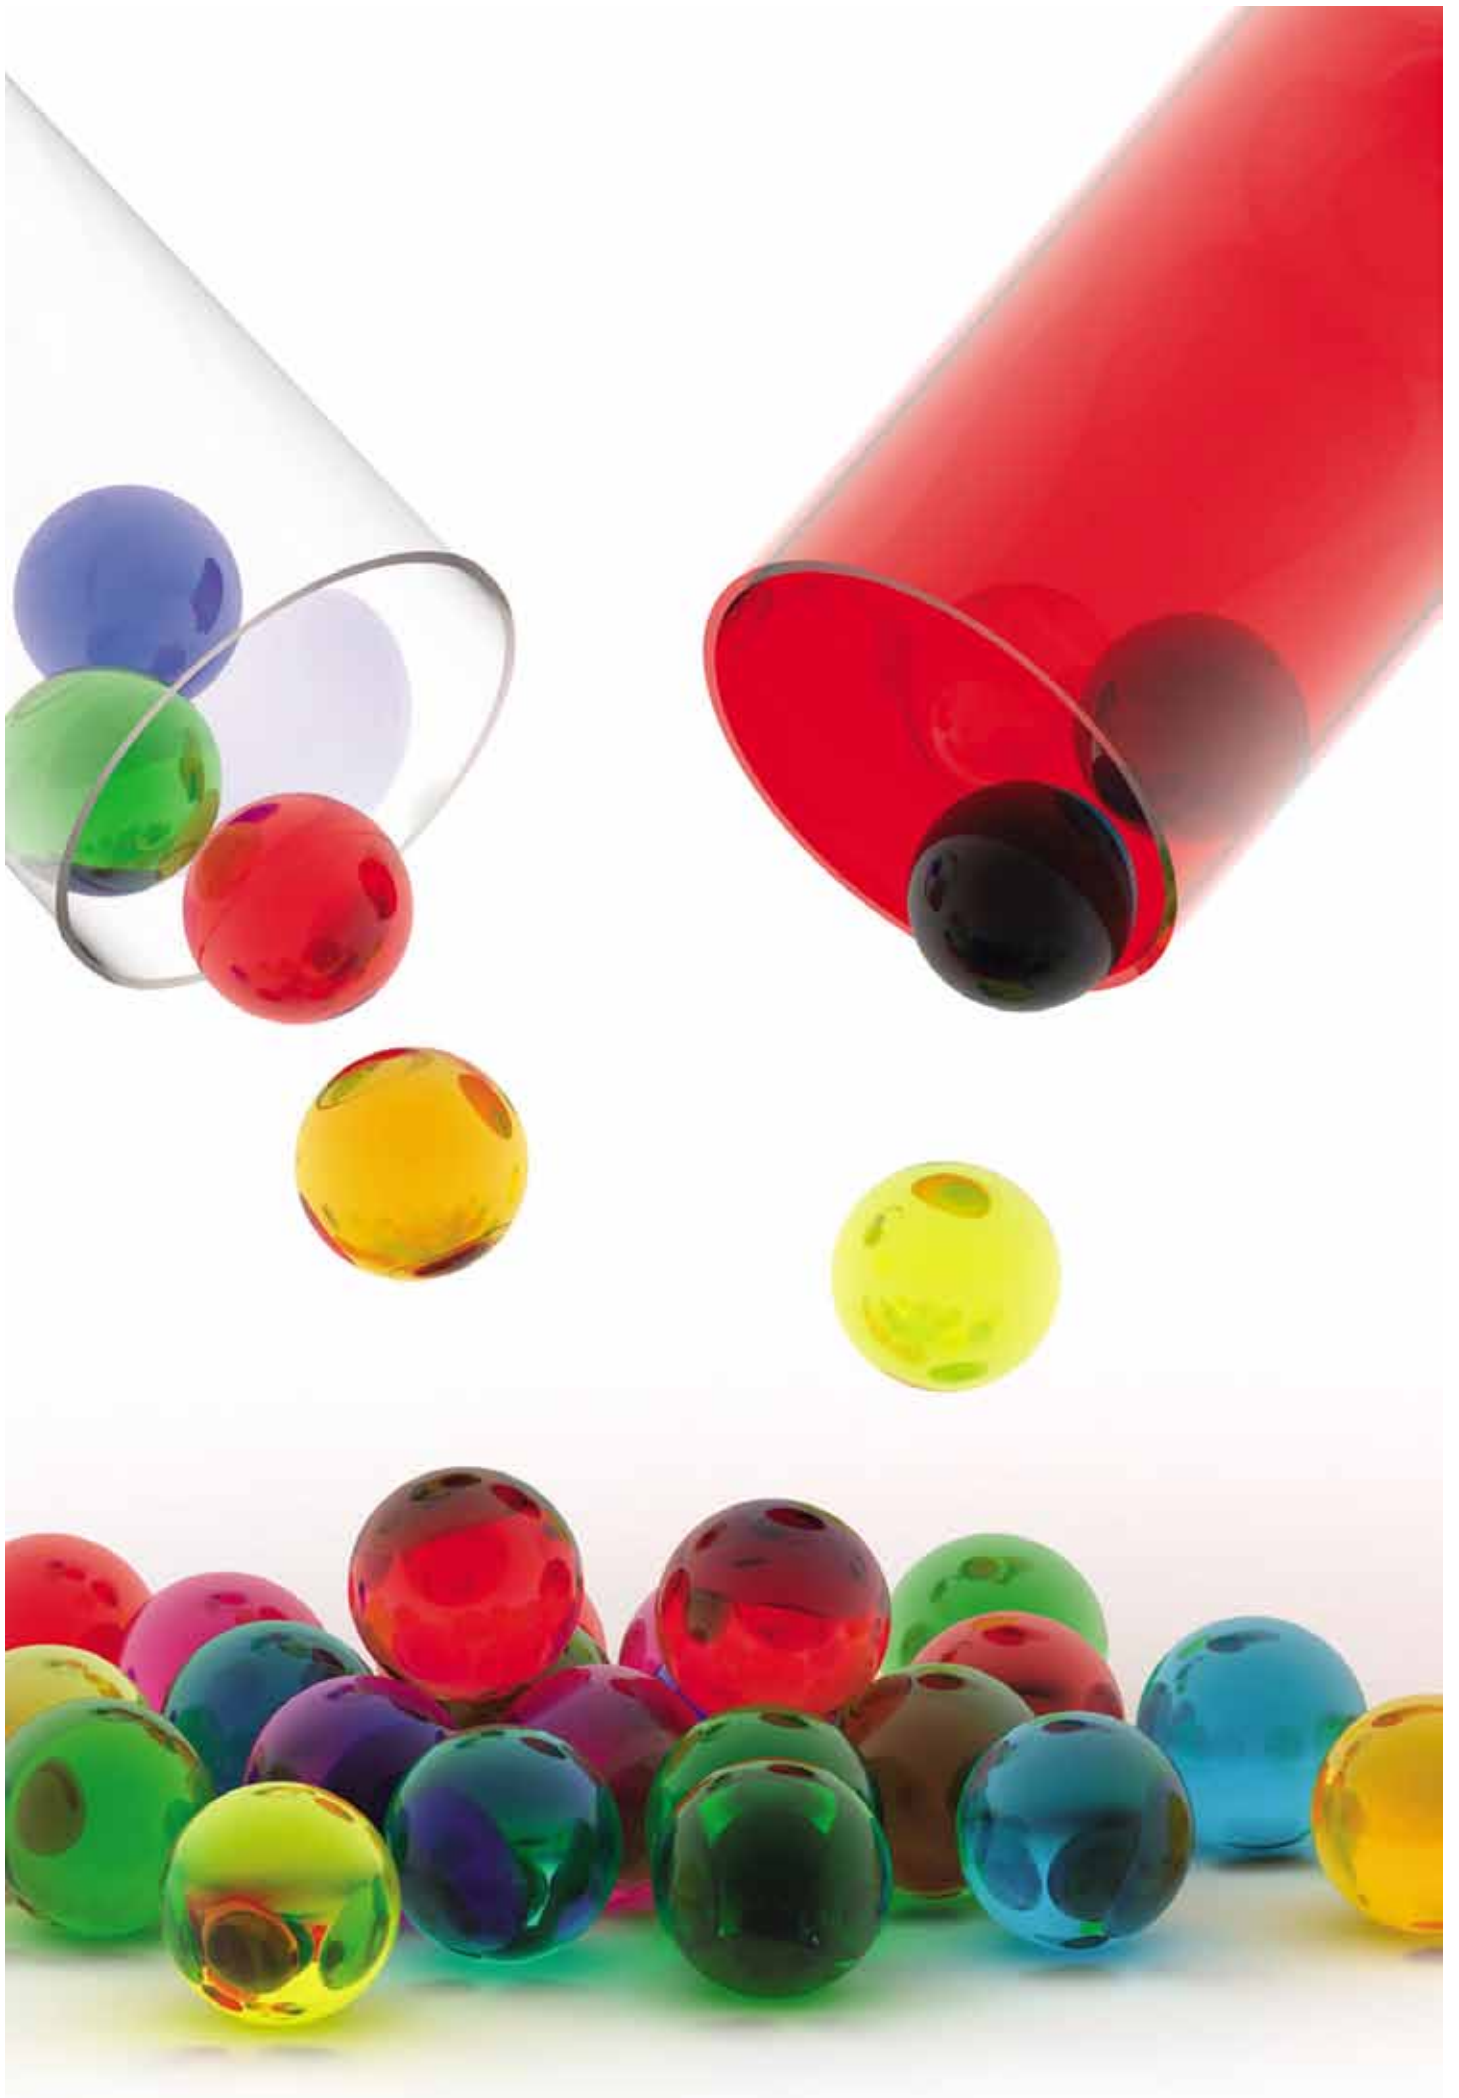

what we do

ABS, a reputed chemical trading company, was initially founded with an intention of serving a very small segment of Pharma industry in North India. However, with the advent of Excise-Free Zone in Himachal Pradesh and Uttarakhand, ABS was empowered to deliver timely supplies of products through its principals not only in the above two states, but also the entire zone of North India.

With a country of over 1 billion, being called the master supplier of life sciences, doesn't come easy. Our sales from a mere 10 crores annually have boomed to 400 crores annually, for which we give entire credit to our team. ABS is targeting more than 500 crores sales of its products in the coming years.

Our services have passed the acid test of time and have made ABS a one-stop-shop for all kinds of services like:

- APIs sourcing
- Intermediate sourcing
- Solvents sourcing
- Exclusive marketing
- Imports
- Indenting
- Registration of New molecules
- Technological Tie-up
- Marketing Tie-up
- Contract-Manufacturing of formulations on P-to-P basis at our own manufacturing facilities at Paonta Sahib (H.P.) and at other renowned units in North India and in all Tax-Free Zones.

ELECTR-MAGNETS

who we serve

Our clients are attracted to us like electromagnets and have stuck with us through all these years because of our unflinching commitment. If you are looking for long-term single source way to manage the cost and inventory issues, ABS Mercantiles is what you are looking for. Complementing our bio-logic, evident in the quality of our compounds and solutions delivered, is our Supply Chain Management.

Our unique range of supply-chain-managed solutions is different for each customer. In some cases a simple price and inventory availability approach is suitable, in others, a full Vendor-Managed Inventory, or Consignment Inventory program, including full systems integration, is a better fit. In each case, our team of specialists works closely with the customer to define and develop the best approach for them.

We are proud of our illustrious patrons, who have been working towards improving the quality of life and easing suffering for millions, by providing effective healthcare solutions.
